

Déjà Vu

Katy Perry

I live off the echoes of your I love you's
But I still feel the blows from all your don't want to's
When you're drunk, you say I'm the one
Then you wake up
You suck my hope up in a vacuum

'Cause every day's the same
Definition of insane
I think we're running on a loop
Deja vu
So tell me something new
Figure out the Rubik's Cube
I think we're running on a loop
Deja vu

Your words are like Chinese water torture
And there's no finish line, always one more corner
Yeah, they slither like a centipede
Why do you keep me
At the end of a rope that keeps getting shorter?

'Cause every day's the same
Definition of insane
I think we're running on a loop
Deja vu
So tell me something new
Figure out the Rubik's Cube
I think we're running on a loop
Deja vu

'Cause every day's the same
Definition of insane
I think we're running on a loop
Deja vu
So tell me something new
Figure out the Rubik's Cube
I think we're running on a loop
Deja vu (deja deja deja vu)

'Cause every day's the same (every day's the same)
Definition of insane (definition of insane)
I think we're running on a loop
Deja vu (deja deja deja vu)
Deja vu
