Faith Won't Fail

You could throw me In the fire And I won't be burned For my faith Is Your desire And Your love endures You could throw me In the prison cell Shackle me up Against the rail But time And time again My faith won't fail [Chorus:] For He'll prevail In the midst of all My trials And tribulations And He'll prevail In the midst of all My sin And temptations He'll prevail When I fall And He Will pick me up For time And time again My faith won't fail Time and time again My faith won't fail You could cast me In the lion's den But they won't harm me For Your grace Surrounds me And it sets me free And I can walk Upon the water And I will not drown For my eyes are Set upon You And no one Can bring me down For His angels Surround me And You've poured out This blood covering And I will walk And not fail For time And time again

Katy Perry

My faith won't fail Time And time again My faith won't fail
