

I'm Still Breathing

Katy Perry

I leave the gas on
Walk the allies in the dark
Sleep with candles burning
I leave the door unlocked
I'm weaving a rope and
Running all the red lights
Did I get your attention
Cause I'm sending
All the signs that
The clock is ticking
And I'll be giving
My 2 weeks

Pick your favorite
Shade of black
You'd best
Prepare a speech
Say something funny
Say something sweet
But don't say
That you loved me

Cause I'm still breathing
Though we've been
Dead for awhile
This sickness has no cure
We're goin down for sure
Already lost a grip
Best abandon ship

Maybe I was too pale
Maybe I was too fat
Maybe you wanted better
Better luck off in the sack
No formal education
And I swore way too much
But I swear you didn't care
Cause we were in love

So as I write this letter
And she'd my last tear
It's all for the better
That we end this this year
Let's close this chapter
Say one last prayer
But don't say
That you loved me

Cuz I'm still breathing
Though we've been dead for awhile
This sickness has no cure
We're going down for sure
Already been diagnosed
So let's give up the ghost

Cuz I'm still breathing
Though we've been dead for awhile

This sickness has no cure
We're going down for sure
Already lost a grip on this abandoned ship
Oh..

I'm still breathing
I'm still breathing
