Lost my mind Lost my mind last night Woke up smiling something wasn't right Sang a song in a major key Something was wrong My mind was gone I was Нарру Crazy Always thought I knew how Tall my smile would stand Turns out who I was not Is now who I am All the lights were on And this song is worse than caroling Lost my mind Lost my mind last night Woke up smiling something wasn't right Sang a song in a major key Something was wrong My mind was gone I was Нарру Crazy Just because I have tea and green leaves Doesn't mean I'm a crackhead anymore Lost my mind Lost my mind last night Woke up smiling something wasn't right Sang a song in a major key Something was wrong My mind was gone I was Нарру Crazy Нарру Crazy
