

I Believe

Kavana

Do you believe? do you believe?

Count the days until I see you
Always on my mind
I've never been so captivated
I've never felt so high
If I ever fall
Would you be my saving grace?
Every time I call whether near or far
You'd come to me always

I believe in love (don't you know that?)
I believe in truth (always)
I believe in trust (since I met ya)
I believe in you (believe in you)

Don't you know? ooh
I believe in you

Thinking about the way it was
I had so much to learn
Looking for an explanation

I left no stone unturned
Then you came along
And you opened your arms, yes you did
Opened up my mind
To a new sensation
It feels so right this time

I believe in love (don't you know that?)
I believe in truth (always)
I believe in trust (since I met ya)
I believe in you (believe in you)

If I ever fall
Would you be my saving grace?
Every time I call, whether near or far
You'd come to me always

I believe in love (don't you know that?)
I believe in truth (always)
I believe in trust (since I met ya)
I believe in you (believe in you)
