

# Make Believe

Kavana

Is it possible for us to dream together?  
Do you really think that we can make things matter?  
There's a place where no one seems to care  
The two of us can make it anywhere

Inspiration comes to me  
Whenever I can see beyond the rain yeah  
I close my eyes imagine times  
I spend my hours looking for sunny days

And you know... ooh

If you make believe with me  
And we'll see where it takes us  
You gotta hold on tight coz we're gonna fly high  
Give me some time and I will protect you  
Tell me all your secrets  
And I will tell you mine

Do you think that this could last forever?  
I can't deny I've always craved this pleasure

Do you believe that we have ever met before?  
Why don't you follow me through this open door?

Inspiration comes to me  
Whenever I can see beyond the rain  
I close my eyes, imagine times  
I spend my hours looking for sunny days

And you know, ooh

If you make believe with me  
And we'll see where it takes us  
You gotta hold on tight coz we're gonna fly high  
Give me some time and I will protect you  
Tell me all your secrets  
And I will tell you mine  
If you make believe with me  
And we'll see where it takes us  
You gotta hold on tight coz we're gonna fly high  
Give me some time and I will protect you  
Tell me all your secrets  
And I will tell you mine

Is it possible for us to dream together?  
Do you really think that this could last forever?
