

# Comes A-long-a-love

Kay Starr

Comes along a love suddenly  
Brother are you happy and excited  
Comes along a love suddenly  
Everywhere you go you feel invited  
Comes along a love suddenly  
Every dream you have becomes ignited  
You just begin to live  
Comes along love

Comes along a love suddenly  
Though you never sang you're always singing  
Comes along a love suddenly  
Chimes you never heard begin a-ringing  
Comes along a love suddenly  
Night and day you're heart is highland flinging  
You live and you love  
Comes along love

I don't care how  
Blue you're feeling now  
You sparkle and you bubble  
See each bluebird double

Comes along a love suddenly  
Petty little things no longer phase you  
Comes along a love suddenly  
Everyone around you seems to praise you  
Comes along a love suddenly  
You discover things that just amaze you  
You just begin to live  
Comes along love

I don't care how  
Blue you're feeling now  
You sparkle yes you bubble  
Look out you gotta whole lotta trouble

Comes along a love suddenly  
Petty little things no longer phase you  
Comes along a love suddenly  
Everyone around you seems to praise you  
Comes along a love suddenly  
You discover things that just amaze you  
You just begin to live  
And really love  
The day you live  
Oh well you sparkle  
You bubble  
Well you're in trouble  
Coz mister  
You're really in love
