

The jury won't believe my words
They want my alibi
It's no use to convince the judge
'Cause money knows no pride

Just take a good look around and soon you'll understand
I do not stand no chance

The traitors and the renegades
They all have their excuse
Their peaceful dreams in minds that hate
While it's me that they accuse
Just open your eyes my friend and tell me what you find
Or are you going blind?

Alibi
Truth or lie

Bars as cure give me your
Alibi
Live or die
Prison will make of you a better man

They tell me this, they tell me that
Deform the truth their way
One never knows just where it's at
Ready to collaborate
Just open your eyes my friend and tell me what you find
Or are you going blind?

Alibi
Truth or lie
Bars as cure give me your
Alibi
Live or die
Prison will make of you a better man
