

First Signs Of Spring

Kayak

Bird of all seasons you've heard many stories
The wind whispers many a tale in your ear
Come sit beside me, I'll sing you a song
All about a love that's gone
So far from here

Bird of all seasons can you keep a secret
Carry my dreams to the one that I miss
Then sit beside her and sing her my song
May she ask where it is from
Then tell her this:
"You'll know if you come along"

I've been waiting all winter
Across the sky you'll spread your wings
Returning with the first signs of spring
Here with me
Waiting all winter
For you to come and birds to sing
Waiting for the love that you'll bring
Back to me

Bird of all seasons can you keep a secret
Carry my dreams to the one that I miss
Then sit beside her and sing her my song
May she ask where it is from
Then tell her this:
"I'll take you where your heart belongs"
