

# Hard Work

Kayak

The choices I have made  
They dictate the life I lead  
Firmly entangled  
Why can't life leave me be

This life is hard work  
With every battle beaten twice  
Day in, day out  
Hope to defeat life, get a little more wise

Hard work,  
Life is searching art work  
You only have to live life  
To meet the world in which we feel it's

Hard work  
Nothing's coming up  
There's no magic in the air  
Silence surrounds me  
With nobody left to care

I only want tot rest  
No thinking what will be  
Just trust the good times  
Leaving the past behind me, in the waves of the sea

Just walk through life  
Don't even think twice  
Hear your heart beating clockwise  
Or you're gonna have to pay it's price  
Don't be controlled by the  
Hard work
