Crazy Law

Kazaky

Why am I feeling this ease of crazy law?
You can have many looks, even how you're born
Why am I feeling this ease of crazy law?
I'm not trying to show you something wrong

My friends say your wish, my waiting for undying kiss
First of all I like you
Look at me don't miss!
My friends say your wish, my waiting for undying kiss
First of all I like you
Look at me don't miss!

Show me where can do, how can do it
Who can do it with you
Show me where can do, how can do it
Who can do it with you
Show me where can do, how can do it
Who can do it with you

There charming deadly shapes, of your dance, babe!

Why are you dancing boring and so slow?
Do you feel the tempting bass of this song?
Why are you dancing boring and so slow?
Give me I'll blow this music, up up it all!

My friends say your wish, my waiting for undying kiss
First of all I like you
Look at me don't miss!
My friends say your wish, my waiting for undying kiss
First of all I like you
Look at me don't miss!

Show me where can do, how can do it
Who can do this with you
Show me where can do, how can do it
Who can do this with you
Show me where can do, how can do it
Who can do this with you

There charming deadly shapes, of your dance, babe!

...of your dance, babe!

...of your dance, babe!

I know sometimes behind my back
You're on the change your image
While taking me for the lack
If you must, with flesh
My dance body□ go to change
Justify your dreams and dance

Keep your dreams keep your plans
All these things
You have its nights
Keep your dreams keep your plans

All these things
You have its nights

The crazy beats are going out with us
Your balls disappear It's time, come up,
Look around, last noise.

Donť ever lose your poise!

Change your dance
It's not too late
Use your chance don't make a blench
Shake sexy rolls use it in the show
Moves out too long, give me more and more
Change your dance
It's not too late
Use your chance don't make a blench
Shake sexy rolls use it in the show
Moves out too long, give me more and more

Show me where can do
Moves out too long
Show me where can do
Moves out too long
