

Dance And Change

Kazaky

Get ready
Be ready
Get ready
Be ready

You're gonna lose me
If I feel your fear
Keep watching me
I can disappear
You're gonna lose me
If I feel your fear
Keep watching me
I can disappear

I'm gonna chose you
'Cause you have no, no choice
I'm gonna chose you
'Cause you have no, no choice
I wanna hear your, your, your voice
I wanna hear your, your, your voice

Move and look at me
Feel and look at me
Move and look at me
Dance and change for me

Move and look at me
Feel and look at me
Move and look at me
Dance and change for me
Dance and change for me

Dance and change for me
Dance and change for me

Dance and change for me
Dance and change for me
Dance and change for me

Move and look at me
Feel and look at me
Move and look at me
Dance and change for me

Move and look at me
Feel and look at me
Move and look at me
Dance and change for me

Move and look at me
Feel and look at me
Move and look at me
Dance and change for me
