

Touch Me

Kazaky

Everyday you can see the sun
It light makes you rise weep
Every night you come into that club
and it always feels what you need

You wanna touch me
You wanna touch me now
You wanna touch me
When the music plays around
Touch me
You wanna touch me more
You wanna touch me
And it's just higher and higher

Touch me
You can touch me now
You wanna touch me
When the music plays around
You wanna touch me
You can touch me more
You wanna touch me
And it's just higher and higher

Touch me
You wanna touch me
You wanna touch me
You wanna touch me
And it's just higher and higher

Higher and higher
Higher and higher
Higher and higher
Higher and higher

Higher and higher
Higher and higher
Higher and higher

Everyday you can see the sky
When the cloud is out all you need
But at night you can back to your desires
And again I feel what you need
I feel what you need
You can touch me
You wanna touch me now
You wanna touch me
When the music plays around
You wanna touch me
You can touch me more
You wanna touch me
It takes higher and higher

Touch me
I feel what you need (You wanna touch me)
I feel what you need (You wanna touch me)
I feel what you need (You wanna touch me)
And it's just higher and higher (I feel what you need)

I feel what you need
I feel what you need
I feel what you need
I feel what you need

Touch me
You wanna touch me
You wanna touch me
You wanna touch me
And it's just higher and higher

Higher and higher (I feel what you need)
Higher and higher
Higher and higher
Higher and higher

Higher and higher (I feel what you need)
Higher and higher
Higher and higher
Higher and higher

I feel what you need
