

When It Rains It Pours

Kazzer

Life is a struggle when it rains it pours oh when it rains it pours

Life is a struggle when it rains it pours oh when it rains it pours

So here I am it didn't happen overnight I had to pay my dues like everybody else in this life

So get a life is what they tell you at first you got to make your own decisions with the music you

Disperse hip hop became a part of my life it was the breaking that started me off doing things right and

Everyday I'd practice so damn hard I'm pulling moves by precision on point just like a dart picked up

The mic seems I got another talent I was soon to be expressing myself just with every ballad and all kinds of

People told me stop but in the end people stabbed me in the back even those who were friends and even at

The studios producers started trippin' tried to make a dollar with gimmicks tried to change my image.

How's that they picked the wrong emcee that's how I made it on my own that's how I made it on my own

Life is a struggle when it rains it pours, oh when it rains it pours.

Life is a struggle when it rains it pours oh when it rains it pours,

Not gonna bother with the down side 'cause I've been there before traveling up and down these roads

I know when it rains it pours

So here it is seems I got nothing to lose should I lay down and die or should I stand up and fight

Should I say what I believe should I say it and leave or should I go on with pretending and blending with other

Beings now everybody knows that money rules the world without money to make money got to rely on

The skills gotta focus when it's hopeless and block out all the critics and block out all the critics and

Block out all the critics when you're down you're down and when you're out you're out sick and tired of

All those peoples who keep running off their mouth with the hypocritical minds so quick to point

The finger what goes in one ear often goes out the other and it's ruff when no one's watching your back when

No one cares where you're at when no one's feeling my pain and my pain exceeds the limit seems

The light has diminished and you can't get nothing finished in the end

You still don't know what to do haters with the attitude get a big fuck you.

Life is a struggle when it rains it pours, oh when it rains it pours.

Life is a struggle when it rains it pours oh when it rains it pours,

Not gonna bother with the down side 'cause I've been there before traveling up and down these roads

I know when it rains it pours
