

You Don't Know

Kazzer

Who is this kid comin' out of nowhere well I'm right here
and if here is on top well then I'm already there
truth or dare
I swear to tell the whole damn truth so help me god and strike me down if th
at's not what I do
now knowing' something about nothing don't mean nothing ain't worth somethin
g
if I play my cards right I'll forever rock the mic
Follow the leader I'll be leading the followers never falling behind try to
catch up with my rhymes
Now session after session I'll be causin' mad tension
I'm not a riddle or a question but I'll leave you guessin'
Comin' straight from the heart in this art my way of life
something you can't stop cause you don't know what I got

You don't know you don't know
you don't know what I got
you don't know you don't know

Hit 'em with the roll hit 'em with the rock
when I'm rippin' on the microphone you don't know what I got
with the roll hit 'em with the rock
when I'm rippin on the microphone you don't know what I got
Everybody's just tryin' to do what they really want to do gonna make it my t
urn what I got
With a little roll with a little rock
when I'm rippin' on the microphone you don't know what I got

You, in it for the fortune or is it for the fame you in it for the cheap thr
ills or in it for the dames
you're in it for all the reasons reason to quit your day dreamin'
I destroy dreams your teams and all you stupid schemes
if seein' is believin' best believe what you be seein'
when I'm on the m.i.c.r.o.p.h.o.n.e. quit actin' your slacking and now I'm w
onderin' why
these phony rappers started rappin' rappin' all about lies
best hop on the band wagon or I'm gonna leave you stranded
like professor Gillian skipper ginger mary ann
here's a thought your hip hops just a plot with too many holes
not knowin' what I got and what I got you got to know

Hit 'em with the roll hit 'em with the rock
when I'm rippin' on the microphone you don't know what I got
with the roll hit 'em with the rock
when I'm rippin on the microphone you don't know what I got
Everybody's just tryin' to do what they really want to do gonna make it my t
urn what I got
With a little roll with a little rock
when I'm rippin' on the microphone you don't know what I got

You don't know you don't know
you don't know you don't know

Now if you represent then you'll always represent
and if you represent what I represent it makes sense
clear and concise I'm makin emcees want to bite
commin' off with my wickedness I gotta keep my shit tight

being true to myself I'm being quick to the point
see my points well taken I can never come fakin' can't read my vibe try to r
ead between the lines
just bring some bifocals cause my style is very fine
wondering what you want to be and what you want to do
but even wannabes don't want to be like you
allot of people try to be a somebody somebody they're not
as far as my life goes you don't know what I got

Hit 'em with the roll hit 'em with the rock
when I'm rippin' on the microphone you don't know what I got
with the roll hit 'em with the rock
when I'm rippin on the microphone you don't know what I got
Everybody's just tryin' to do what they really want to do gonna make it my t
urn what I got
With a little roll with a little rock
when I'm rippin' on the microphone you don't know what I got

You don't know you don't know
you don't know you don't know
you don't know you don't know
