

# Put the Radio On

Keane

You tell a lie, I'll tell one too  
It makes it easier to do  
Such a long time I've thought about you  
It makes it easier to do

Shut all the blinds, hang a sign on the door  
We can't stop this anymore  
Let's make a world no-one can touch  
A world where there is only us

Put the radio on  
Put the radio on  
So that no-one can hear  
Put the radio on  
Put the radio on  
Put the radio on  
So that no-one can hear  
Put the radio on

Don't have time to listen to my mind  
To think about the signs  
To think about our lives  
Let's pretend (put the radio on, put the radio on)  
This will never end (so that no-one can hear, put the radio on)  
We're in control of it (put the radio on, put the radio on)  
We will be disciplined (so that no-one can hear, put the radio on)

Maybe I'm just dreaming  
I wish I was dreaming  
I wish I was dreaming  
I wish I was dreaming  
I wish I was dreaming

(Put the radio on)  
(Put the radio on)  
(Put the radio on)

Put the radio on  
Feel my heart banging like a gun  
Put the radio on  
Put the radio on  
Feel your light surround me like a song  
Put the radio on  
Put the radio on (radio on, radio on, radio on)  
Feel my heart banging like a gun (radio on, radio on, radio on)  
Put the radio on  
Put the radio on (radio on, radio on, radio on)  
Feel your light surround me like a song (radio on, radio on, radio on)  
Put the radio on  
Put the radio on (radio on, radio on, radio on)  
Feel my heart banging like a gun (radio on, radio on, radio on)  
Put the radio on  
Put the radio on (radio on, radio on, radio on)  
Feel your light surround me like a song (radio on, radio on, radio on)  
Put the radio on
