

## Time to Go

Keane

Now, picturing a scene  
Seen it all before  
We drink, we drink a little much  
We drink a little more  
To shake off the nerves and  
Take off the edge and  
Now, is there any way back home?

Seen it all before  
And I know the signs  
We drink, drink a little much  
To stimulate the mind  
Now it's two hours to go  
Insult everyone that we know  
Now it's such a long way home

Maybe it's time to go  
Maybe it's time we went  
You're making a spectacle  
Maybe it's time we left

I don't wanna spoil your night  
I don't wanna hurt your pride  
But maybe it's time to go  
Maybe it's time

Now, eating from your hand  
Laugh at every line  
Soon, losing track of you  
Losing track of time  
Now it's dead on the dance floor  
And nobody's laughing anymore  
Have I become a tiresome bore?

Maybe it's time to go  
Maybe it's time we went  
You're making a spectacle  
Maybe it's time we left

I don't wanna spoil your night  
I don't wanna hurt your pride  
But maybe it's time to go  
Maybe it's time... to go

Where there's nowhere to hide  
From what's broken inside  
A faultline rips right open  
Under the wide wide ocean's tide  
Under the wide wide ocean

Maybe it's time to go  
Maybe it's time we went  
You're making a spectacle  
Maybe it's time we left

I don't wanna spoil your night  
I don't wanna hurt your pride

Maybe it's time to fly  
Maybe it's time  
Maybe it's time to go  
Maybe it's time..
