

## Other Side

Keaton Simons

There's another darker side of you  
Inside the lies  
Desperately trying to be seen  
We fight  
We try

On and on and on and on  
After the lights are gone  
Will you still love me  
On and on and on and on  
After the truth has shown  
Will you still want me

Don't look the other way  
When you're afraid  
When you're afraid  
Don't let your heart betray  
The love we made  
When you still had me

Speaking soft so no one feels attacked  
We act relieved  
Maybe we could use a little break  
We make believe

On and on and on and on  
After the lights are gone  
Will you still love me  
On and on and on and on  
After the truth has shown  
Will you still want me

Don't look the other way  
When you're afraid  
When you're afraid  
Don't let your heart betray  
The love we made  
When you still had me  
You still loved me  
You still wanted me
