

## Don't You Know

Keb' Mo'

I don't have your number  
I don't know your name  
Don't have your picture  
In a golden frame  
Ohh but when I see you  
My heart goes wild  
Feels like christmas morning  
To a little child  
Don't you know  
That I've been watching you  
Don't you know  
That I've been longing for the chance  
Can't you tell that i've been hoping too  
Be loving you, and only you  
Don't you know  
Don't you know  
I am only human  
Just flesh and bones  
And I got a feelin'  
That I've never known  
Ohh it feels like thunder  
Not a cloud in sight  
It feels like sunshine  
In the middle of the night  
Well don't you know  
I've been watching you  
Don't you know, I've been longing for the chance  
Can't you tell, I've been hoping too  
Be loving you, and only you  
Don't you know  
Well maybe someday  
We will see  
Don't you know  
That I've been watching you  
Don't you know  
I've been longing for the chance  
Can't you tell  
I've been hoping too  
Be loving you and only you  
Don't you know  
Don't you know  
Don't you know  
Don't you know
