

Walk Through Fire

Keb' Mo'

I found my way back
But I've got to let you know
That getting over the past, my dear
Is like climbin' up a slippery slope

I've lost my resistance
To the mystery of love
And you're the one I'm runnin' too
Now I'm ready to take the chance
And there's one thing I'm askin' you

Are you willing
To walk through the fire
Face down the wind and rain
Who knows how far we can go
Are you willing
To walk through the fire with me

If love was easy
It wouldn't run so deep
Just like Michelangelo
We're workin' on a masterpiece

I've got a feeling down in my bones
And now I understand
So if you want somebody to depend on
I'm ready to be that man

Are you willing
To walk through the fire
Face down the wind and rain
Who knows how far we can go
Are you willing
To walk through the fire with me

We'll take it one day at a time
And see how deep we can love
How high we can climb
And if we burn down
The walls of our fears
There'll be nothin' left
But a whole lotta love in here

Are you willing
To walk through the fire
Face down the wind and rain
Who knows how far we can go
Are you willing
To walk through the fire with me

Are you willing
To walk through the fire
Face down the wind and rain
Who knows how far we can go
Are you willing
To walk through the fire with me
