

Brothers in Blood

Keel

It's been a long time coming
I've had a good time running
But we never said goodbye

Some things are built to last
So tonight we're gonna raise a glass
To the good good times to come
And the days gone by

Brothers in blood
Out on the streets again
Brothers in blood
Riding the midnight wind

It's been a long rough ride
Hard luck < foolish pride
But the road goes on
And some things never change

Some die - some disappear
Lost on the last frontier
And some survive
To claim what still remains

Brothers in blood
Hearts of chrome
Brothers in blood
Finding our way back home

Some things are made to last
Tonight we're gonna raise a glass
To the good good times to come
And the days gone by

'Cause we're brothers in blood
