

I used to hope I'd die before I got old
Living in the moment
Never worried about tomorrow

I learned the hard way to just hold on
To the good times
No matter what went wrong
As long as I'm alive I got something to live for

Looking back on those reckless years
No regrets - no more tears
We got each other - and so much more

This is who I am - this is where I stand
Give it all I got - do the best I can
Gonna hold on for dear life
Just to make it through the night

I want to live - I wanna rock
Wanna chase my dreams and never stop
I just wanna hold you and never let you go
I want to live - I want to fight
And hold on to this life
Like there's no tomorrow
I want to live

Baby what we got is all I need
It don't come cheap but our hearts are free
And we take each day as it comes

I know who am I want - is all I can do
Gone to hell and back again
But I'll leave my mark when my time is done

And all I want - is all I can do
All I can be - I wanna be with you
Gonna hold on to what's right
Night after night after night after night

I want to live - I wanna rock
Wanna chase my dreams and never stop
I just wanna hold you and never let you go
I want to live - I want to fight
And hold on to this life
Like there's no tomorrow - I want to live
