

No Pain No Gain

Keel

I've learned a lesson fools never learn
Play by your own rules
or you'll get burned I'll have the last laugh
When I see the tables turn

But there's a high price you gotta pay
Just be a good boy and do everything they say
I say to hell with that I'll do it my own way

Life's a game that has no rules
You play to win or you'll play the fool
Don't you know

No Pain no Gain Pay the price

If you're not satisfied then what's the use
You feel the pressure as they tighten up the noose
I've had enough and I won't take no more abuse

Life's a tale that can't be told
And I'm a man who can't be bought or sold
No way

No Pain no gain Pay the price
No Pain no gain No way no, no, no
No Pain no gain come this

Pay the price No Pain no gain
No Pain no gain Pay the price
No Pain no gain
