

Push & Pull

Keel

You got a secret side about you
That no one sees but me
You like to push me to the limit
And then pull me in so deep

Whenever we come face to face
I see all the love I need
But I can't keep my distance
When you turn the other cheek

Push me to the left
Pull me to the right
Pull me in close
And make it last all night
Take it all in
Nobody wins
If we don't fight it tonight

We're gonna Push & Pull
Go on and do that thing you do
Push & Pull
Makin' my wildest dreams come true

You gotta know how bad I want you
When you play so hard to get
You never back off and I won't back down
When it's you I'm up against

I got a dangerous attraction
And two wrongs make it right
We're headed on the same direction
and there's no turning back tonight

Push me to the left
Pull me to the right
Pull me in close
And make it last all night
Take it all in
Nobody wins
If we don't fight it tonight

We're gonna Push & Pull
Go on and do that thing you do
Push & Pull
Makin' my wildest dreams come true
