With them Earl Jeans on fitting tight like a glove

You little Cinammon Toast Crunch, come show me some love

Slim goodie got tittle litties

Yeah, but she's a picture post card pretty fat kitty little bitty

You're provoking me, giving me the notions

To make me wanna lick your funky emotions

She can make a crippled man walk and a blind man see How can I put this?

She can make the Grinch love Christmas

How can I manifest her uniqueness in vernacular?

Like a chocolate candi bar

I seen her at the park on the black top watching the kids play Hey style complimented the sunny day
There's a mild nature about her
Gentle but firm for all the bullshit life brought her way
You reflected beauty of a starless night by far
Like Billy Joel said, "I take you just the way you are"
I had a crush on you since the days of love tap
Karate shoes you had jelly cornrows with the peas in the back

I knew you'd grow to be a fine specimen someday You the very inspiration for the song I sing The way you sprint the runway and scale the catwalk Your life is a movie and the camera's never off It's like love at first taste, coming deep from within From your DNA structure to your whole body ova Your beauty is respected in the eye of the beholder I love that little chocolate bar tattered on your shoulder
