

Heartstopper

Keith Richards

My Baby don't like me, she loves me just the same
I just can't help it, it goes against the grain

But when she holds me something starts anew
She forgives me, and I forgive her too

She's a vegetarian, but me, I love my meat
She likes it when it's cool, but I just love the heart

But when she holds me something starts anew
She forgives me, and I forgive her too

When we're walking down the street, oh it blows their minds
Everybody wants a pice, a pice of mine
Even if I cross the road she's always on the phone
I don't know who she's talking to, but I've walked home alone

But when she holds me something starts anew
She forgives me, and I forgive her too

The bitch don't like me, but she loves me just the same
And when she loves me I don't feel no pain
