

## Yap Yap

Keith Richards

Well, I hear you talking and I see me walking  
Let me make clear, I'm outta here, oh yeah  
You know it makes no sense to me  
No way, you gonna get no fence around me, yap yap

You known you talk too much, mmm yeah  
Yap yap, you talk too much  
Even in my sleep I hear you babe  
But it makes me weep when I'm awake

When I hear the whispers, babe  
The echoes coming round the bluff  
I get all my secrets back  
It's quite a shock, mmm yeah

Yap yap, you know you're talking too much, mmm  
It's driving me, driving me  
So what's the message  
Why don't you talk to me

Yeah, it gets to me  
Well, I hear you talking  
It makes no sense to me  
Yap yap, you talk too much
