

Come With Me

Keith Sweat

Yeah, what I want you to do tonight
Is turn your the stereo up real loud

Now for all the fellas out there gettin their groove on
And for all the ladies out there gettin on with the groove
This one goes out to you, yeah

Would you mind
If I kiss your lips a thousand times
Would you mind
And baby would you mind
If I could just sit here
Take my time
Would you mind
Oh, baby

Come with me
To a place where no love has gone before
Come with me
To a place where no love has gone before

Would you mind
If I run my fingers through your hair, baby
Would it show you how much I care
And would you mind
If I made you scream my name out loud, babe
The thought of it just drives me wild

Come and go with me
Girl then you will see
I wanna love you now
Make your body spin around and around and around and around
