

# In Your Eyes

Keith Sweat

It's in your eyes  
The way that you love me  
It's in your smile  
The way that you care for me.  
Took me awhile  
To know that you love me  
Now I know  
It's in your eyes

I've been let down talkin about  
People always telling me dreams  
You came along  
Said you was different  
Said you could show me what true love means  
I took a chance  
And let you in  
You came running into my life  
At times I yelled at you took ya by surprise  
But you kept showing me love

It's in your eyes  
The way that you love me  
It's in your smile  
The way that you care for me  
Took me awhile to know you love me  
(to know really really love me baby)  
Now I know  
It's in Your eyes

Now I know when you told me you would love me  
I wondered girl if you were true  
You would sacrifice all your time  
I wouldn't do the same for you  
I just held on thinking you were wrong  
How could you even understand me.  
Now I realize I was so surprised cause baby it was plain to see girl.

It's in ur eyes  
The way that u love me  
It's in ur smile  
The way that you care for me  
Took me awhile  
To know that you love me how much you love me.  
Now I know  
It's in your eyes

It's in your eyes  
The way that you love me  
It's in your smile  
The way you care for me  
Took me awhile  
To know that you love me  
How much you love me  
Now I know  
It's in your eyes

It's in ur eyes

The way that you love me  
It's in your smile  
The way you care for me  
Took me awhile  
To know that u love me how much you love me.  
Now I know  
It's in your eyes

(Help me out, Help me out)  
I was wrong  
To think that you  
Would ruin the love way you do  
Take me back, hold me tight  
I see the love in your eyes

It's in your eyes  
The way that you love me  
It's in your smile  
The way you care for me  
Took me awhile  
To know that you love me how much you love me  
Now I know  
It's in your eyes

It's in your eyes  
The way that you love me  
It's in your smile  
The way that you care for me  
Took me awhile  
To know that you love me  
Now I know  
It's in your eyes

It's in your eyes  
The way that you love me  
It's your smile  
The way that you care for me  
Took me awhile  
To know that you love me  
Now I know  
It's in your eyes
