

# What Goes Around

Keith Sweat

What goes around  
Comes back around  
What goes around  
Baby, what goes around come on  
Comes back around  
All come back around

Look like the arguements we had make you mad  
Could you never thought you can call?  
I thought I knew you, all I knew  
I thought I knew you that you respect the promises we make  
But girl you did deny it when you walk right out the door

Baby, won't you close?  
Baby, close your eyes and think of me  
Would you do the things that I did?  
I can make your dreams come true  
See I can make your dreams come true tonight  
See we can make love  
All night long  
But somethin' just ain't right

What goes around?  
Baby what goes around, yea yea  
Comes back around  
Will surely come back around if you let it be, yea yea  
What goes around?  
Baby, what goes around, oh yea yea yea?  
Comes back around  
Will come back on you baby, yes it will

Now all night long I wander, why play a fool  
And why I didn't read between the lines  
Like you came home late  
Said you with your girlfriend  
In the land that hang up on the phone  
Everybody know baby what in the hell is goin' on

Don't you close  
Baby, close  
Close your eyes  
And think of me  
Would you do the things that I did  
I can make your dreams come true  
See I can make your dreams  
Come through tonight  
See we can make love  
All night long  
But something just ain't right

What goes around?  
Baby, what goes around, yea yea  
Comes back around  
Will surely come back around if you let it oh yes it will  
What goes around?  
Baby, what goes around, yea yea  
Comes back around

Will surely come back around, yea  
What goes around?  
See you can't get through it wrong  
Comes back around  
See baby you can't get through it wrong, yea yea yea
