

You Got Me

Keith Sweat

Uh, yeah, uh huh, yeah
Yeah, yeah, yeah, uh huh, yeah, yeah
It's another one
Uh huh, yeah, yeah
It's another one, and another one

You got me where you want me
You could listen to Levert while leaving the country
And then sweat it out when you feel comfy
Or play Gill to the minute that ou say you're hungry

Uh, you got me where you want me
You could listen to Levert while leaving the country
And then sweat it out when you're feeling comfy
Or play gill to the minute that you say you're hungry

Uh, you got me where you want me
You could listen to Levert while leaving the country
And then Sweat it out when your'e feeling comfy
Or play Gill to the minute that you say you're hungry

I know
You need
Love and understanding
Sometimes
Feel like
I can't give you more of my time
You keep on wanting me
To be there girl
But I can't be
Why you keep stressing me
When you know I'm doing my best
I keep on telling you
I do the best that I can do
How can I get through to you
Everything I do is for you

You got me where you want me
Tell me what you need
Take me baby
Tell me what you want
Anywhere you wanna go is for me
You got me where you want me

I can't keep on going through these changes
The more you doubt me
You keep pusing me away girl

You keep on wanting more
I'm doing my best
I'm doing everything for you

Girl, you got me yearning
Yearning to know what I'll do with love
Can you tell me what I'm doing
But I'm always saying you don't understand
I'll never leave you alone
