Lovin' on the Side

Keith Urban

I can't believe it, guess I'll never understand
Seems to me, I'm lookin' at someone who's an unchanged man
Tell me, what've I gotta do
To make you see that she's always loved you
Right there waitin' in the wings
Unaware of the foolish things you do, think about it

She would never do a thing to hurt you
And there is nothing she'd ever need to hide
You're takin everything she gives for granted
You got it all and still I don't know why
You're lovin' on the side

If somebody told her 'bout your secret ways
Do you think you'd ever find another who could take her place
I'd give everything I own
Just to have what you got at home
But still you are never satisfied
Why do you keep lovin' on the side when you know

She would never do a thing to hurt you
And there is nothing she'd ever need to hide
You're takin everything she gives for granted
You got it all and still I don't know why
You're lovin' on the side

Tell me what I've gotta do
To make you see that she always loved you
Right there waitin' in the wings
Unaware of the foolish things you do, well think about it
You're lovin' on the side
Lovin' on the side

She would never do a thing to hurt you
And there is nothing she'd ever need to hide
You're takin everything she gives for granted
You got it all and still I don't know why
You're lovin' on the side
