Walkin' the Country

Keith Urban

Runnin' from the rate race
Just as fast as I can
Take off my tie so I can breathe
Me, I'm going where the fresh air's blowin'
Take a little walk in the country with me

[Chorus]
Walk in the country with me
Watch the sun sinkin' down on the trees
It's gonna do us some good
To get down in the woods
Take a little walk in the country with me

I'm so sick of all them TV shows
I need some dirt road under my feet
C'mon let's point our toes where the red fern grows
Take a little walk in the country with me
Come on now

[Repeat Chorus]

Walkin' the country
Oh bless my soul
Just gimme that country road
Come on now

[Repeat Chorus]

Take a little walk in the country with me
Come on now baby
Take a little walk in the country with me
