Keith Whitley

If you drive around Back in our old hometown I wonder do you think of me When you drive by a school Do you remember two fools I wonder do you think of me And remember the park Where you struck the spark To a fire that's still burning Oh, in my heart That old graduation day You just drifted away I wonder do you think of me And remember those games Those cold football games I was your hero Though I seldom played Back then could you see What our future would be I wonder do you think of me And the classes we missed Caused by a kiss I can tell you that I've never Felt like that since I don't know if you would But I'd go back if I could I wonder do you think of me I still love you Do you think of me
