

# Leave Well Enough Alone

Keith Whitley

Let's leave well enough alone  
Darling, we can get by on our own  
Our love's strong enough to weather the storm  
If we leave well enough alone.

We've been together so long  
We've taken the good with the bad  
Now I see the fear in your eyes  
You worry we've lost what we've had.

Let's leave well enough alone  
Darling, we can get by on our own  
Our love's strong enough to weather the storm  
If we leave well enough alone.

The doubts you have in your mind  
Are hard for your heart to conceal  
But our love grown stronger with time  
And it's just growing pains that you feel.

Let's leave well enough alone  
Darling, we can get by on our own  
Our love's strong enough to weather the storm  
If we leave well enough alone.

Our love's strong enough to weather the storm  
If we leave well enough alone...
