

Embrace The Dead

Kekal

"Another dawn of day arrives
But still nothing new under the sun
I'm waiting for the night again
Can't stand the hate when I wake up"

"People come and go bite each other
There is no sign of peaceful life
Our hearts were filled with pain
As we did not know how to deal with hate"

A nature of mankind, we are dead since birth
Unaware to the reality that we've sinned
Knowledge and wisdom have been cleared from our minds
All lead to consequence of eternal destruction

Merciful God really feels all our pain
Yes, He cries when we cry
He is hurt when we are hurt
"I will not let this happen
My love will protect you
From the hell that is approaching..."

Then came His grace upon Earth
Through the immaculate conception
And the virgin birth
Son is sent to embrace the dead
And his death give us eternal life

No resurrection without Christ
No incarnation without love

"If I know how much love God gives me
That The Unsinners had to get tortured
Why should I refuse to accept this grace?"
