

Manipulator Generals (part I Of Dictatorship)

Kekal

Dictatorship...

We are the untouchables

Governmental system manipulators

Architects of power over people

Creators of laws and constitutions

Now we can freak you out

Suck you in, crush you down

And we can change the pace of your social motions

We are generals of corrupt nation

Put order that is within our hands

The absolutes of obstinacy

With weapons on our side we rule

Failure is the system

Power is in control

Now we can burn your home

Take your rights out, execute you

And then you will disappear from the surface of our land
