

Friend Me Up

Keke Palmer

4...3...2...1

They see me on the cover of a magazine
And when the player rolls on the big screen
So what about they running up to me
Like hey girl don't you remember me
We used to hang together back in middle school
I'm thinking yeah that's great, but who are you
They seem to ask the same questions every time
And I help em' out, help em' out, bring em' round'

You try and pretend like you really know me cause
You wanna try and get something from me but I know what's up
You wanna friend me up (Oh Oh Uh No)
You wanna friend me up (I don't think so)
You wanna friend me up (You say don't front)
You wanna friend me up (Oh Uh)
You wanna friend me up

You say you like my style, personality
And you wanna try and get to know more bout me
I'm different from other girls, not like the rest

And if time was a star, you would like to embrace
Then all of a sudden you start changing, rearranging, oh you were
And then you start doing things so peculiar like it could have used me cause
I'm a star

You try and pretend like you really know me cause
You wanna try and get something from me but I know what's up
You wanna friend me up (Oh Oh Uh No)
You wanna friend me up (I don't think so)
You wanna friend me up (You say don't front)
You wanna friend me up (Oh Uh)
You wanna friend me up

Don't pretend that you're my friend cause I can see that you're trying friend
me up
Don't pretend that you're my friend cause I can see that you're trying friend
me up

You try and pretend like you really know me cause
You wanna try and get something from me but I know what's up
You try and pretend like you really know me cause
You wanna try and get something from me but I know what's up
You try and pretend like you really know me cause (No ooh ooh ooh ooh ooh
ooh)
You wanna try and get something from me but I know what's up (Nooooo)
You wanna friend me up (Oh Oh Uh No)
You wanna friend me up (I don't think so)
You wanna friend me up (You say don't front)
You wanna friend me up (Oh you wanna friend me up)
You wanna friend me up (Oh Oh Uh No)
