Tonight is da right night everybody's alright
Yo feel it in my bones we gonna make it outta sight
So if your ready go party till' da daylight
Come on alive with me

Baby don't be shy it's time to come alive
Yeah have a good time so get your hands high
Groove cause it feels right under the moonlight
Nod your head with me (Nod your head with me)

When the night time comes we go out
Maddness under the moon out is south
Doing what we want when the the magic is right
Let's Party under the morning light
