

# Work Like You Love Me

Keke Palmer

We talk like you love me  
We kiss like you love me  
We touch like you love me  
I guess that means that you love me

I want your la la la la la la

We work like you love me  
We fight like you love me  
We ride like you love me  
I guess that means that you love me

I want your la la la la la

Boy, this might be right  
Flexing like I don't like  
But really, boy, I want you, boy  
I hate this just might be good news  
'Cause I've been searching, I've been waiting  
For somebody like you

Said it's you, do it all  
Don't want for nothing at all  
You hold me tight, you treat me right  
So I answer all of your calls  
Say that you a G but you hugging all on me  
You got me and I love it  
I won't put no one above it

'Cause we talk like you love me  
We kiss like you love me  
We touch like you love me  
I guess that means that you love me

I want your la la la la la la

We work like you love me  
We fight like you love me  
We ride like you love me  
I guess that means that you love me

I want your la la la la la

Sneaking through his heart  
Tryna make me pop  
I'm tripping, boy, like really, boy  
Did you pull the guns of love on me?  
You want it all and need it all  
But you got this hold on me

Said it's you, do it all  
Don't want for nothing at all  
You hold me tight, you treat me right  
So I answer all of your calls  
Say that you a G but you hugging all on me  
You got me and I love it  
I won't put no one above it

'Cause we talk like you love me  
We kiss like you love me  
We touch like you love me  
I guess that means that you love me

I want your la la la la la la

We work like you love me  
We fight like you love me  
We ride like you love me  
I guess that means that you love me

I want your la la la la la

Who knew you were this close  
Right up under my nose  
Boy, you were a pleasant surprise  
I know that we got history  
Let's see if it's meant to be  
But right can we enjoy this ride?

We talk like you love me  
We kiss like you love me  
We touch like you love me  
I guess that means that you love me

I want your la la la la la la

We work like you love me  
We fight like you love me  
We ride like you love me  
I guess that means that you love me
