

# You Got Me

Keke Palmer

Keke, you know I got you, right?  
And before I let you sing to them  
With that pretty voice of yours  
Let me clear something up  
Your momma said what?  
Your sister said who?  
Come on you see what they tryin' to do  
It's impossible but they still on a mission  
To break up a happy home  
Like demolition  
Don't even listen

So baby tell me you don't care what they saying  
Boy you know me so they can just keep on hating  
We're the only ones in this love  
No one can take this way from us

And I know we got the real thing  
Cause I feel it when you hold me (Yeah)  
So I wanna know

What do they know bout love  
What they, what do they know about us  
And as much as they bring me up  
The only thing they know is I got you  
Baby I got you and you got me

So baby tell me why they wanna mess this thing up  
Maybe they be hating cause they wish they was us  
They can't get between this love  
No one can take this way from us

And I know we got the real thing  
Can you feel it when you hold me (Yeah)  
So I wanna know

What do they know bout love  
What they, what do they know about us  
And as much as they bring me up  
The only thing they know is I got you  
Baby I got you and you got me

First I greet you with a kiss on the lips  
No special occasion, but your presence is a gift  
They try to sing our relationship  
But we cruising on a coast to Costa Rica  
So don't trip  
I fall in love with something new about you everyday  
It ain't nothing like the real thing baby  
You got me singing like I'm Marvin Gaye  
Tyrese with a chorus of sweet lady  
(Uh) match made in heaven  
Lucky that I had found you  
I must've rolled a seven  
Or eleven, 1-4-3  
I got you, you got me

What do they know bout love (what do they know)  
What they, what do they know about us (they don't know nothing)  
And as much as they bring me up  
The only thing they know is I got you  
(I got you, I got you, I got youuu)  
Baby I got you and you got me

They don't know,  
They don't know  
(And you got me)  
I don't care about what they saying, no.  
(Cause you got me)  
I love ya, I love you yeah  
(And you got me)  
Don't care about what they saying, no  
(You got me)
