

## Talkin' 'Bout Love

KeKe Wyatt

I don't need nobody but you  
You don't need nobody but me  
Loving you is like 1, 2, 3  
With all the things you doin' to me

Something bout the way that we always get down  
(sumthin bout the way, sumthin bout the way)  
Like how u make me feel when you come around  
(when u come around, baby come around)  
Yes you got me lovin' all the things you do  
(lovin' what u do, lovin' what u do)  
And tonight I got plans to be lovin' on you  
(lovin' on you, lovin' on you)

Talkin' bout lovin' you  
Talkin' bout sexin' too  
Talkin' bout kissin' you, touchin' you  
Keepin' my body real close to you  
Talkin' bout lovin' you  
Talkin' bout sexin' too  
Talkin' bout kissin' you, touchin' you  
Keepin' my body real close to you

Pop with some bubble bath  
(you can wash me, and I will wash you)  
Fresh strawberries in the champagne glass  
(got the Cristale, please don't be awhile)  
Got the candles lit with the light turned off  
(candle lit, lights turned off)  
Wipe this thing from the mirror, wanna see it off  
(I can see your shadow drippin' off the wall)

Walking to the room, to the bed, on the floor  
Anywhere, I dont see nothing wrong,  
But u lovin' on my body baby all night long

I don't need nobody but you  
You don't need nobody but me  
Loving you is like 1, 2, 3  
With all the things you doin' to me

[CHORUS]
