

Everything You Wanted

Kele

I see the bags in the empty hallway
I can tell that something has changed.
I see the pain written over your face
And i know i pushed you too far.

If you want to leave me,
You must know one thing.

I could have given you everything you wanted
Everything you needed.

I know there're times I've lost my mind
I am told I'm only halfway
But you were there
In my thoughts,
In my head
In my heart
Above the left side.

I know the time for us has past,
But you must know one thing

I could have given you everything you wanted
Everything you needed.

And i say,
Dale dale I'm a deero
I'm finding it hard to breathe (4x)

I could have given you everything you wanted
Everything you needed.
