

# Release Me

Kele

If you come to say  
You would get...  
You can only try your best  
It would be enough  
If you gone to stare out the summer  
You would get...  
You can only try your best  
But it would be enough

Release me  
Release me from your love  
Release me  
Release me from this love

I...  
I cannot make you dream  
I can kiss away all this scars  
But I can't relieve again

Sometimes you... sometimes you bad  
... too warm and make you... your game okay

Release me  
Release me from your love  
Release me  
Release me from this love

I you gotta know  
... release me  
Release me from your love

Release me  
Release me from your love  
Release me  
Release me from this love
