

A Lie

Kelela

Grey and cloudy
It rains every day
With/without
Either way we're both suffering
We rode away
Wish you didn't draw it out this long
Blowing smoke out my window
On our way home

I see, too
You're not the only one
Kiss that story goodbye
It's what they call a lie

Bound, though you are free
To do what you want
It'll be just fine and i know it
I love you
I know we'll speak
It's only a matter of time
Couldn't hate you forever
You know it

I see, too
You're not the only one
Kiss that story goodbye
It's what they call a lie
