

Blue Light

Kelela

Falling, falling
Falling, falling

Although I've hardened
Darling, my guard is down
When I know you're around
Only one that fit the crown

When I need love I run to you
You're the only one I want, want you now
Silly shit we go through
I cop my keys and I'm out

I'm on my way right now
 Promise I won't be long
 Baby, keep the blue light on
 My chains, they come falling down, down
 My chains, they come falling down
 My chains, they come falling

I'm begging your pardon
Told myself I needed time
But my discipline is slipping
Head first

'Cause, baby, with your love around
I could save the world
For better now
I want you where you are right now

I'm on my way right now
 Promise I won't be long
 Baby, keep the blue light on
 Chains, they come falling down

I'm on my way right now
 Promise I won't be long
 Baby, keep the blue light on
 My chains, they come falling down
 My chains, they come falling down
 My chains, they come falling
 My chains, they come falling down
 It's all falling down
 My chains, they come falling down

Gold in the offering
Darling, my guard is down
When I know you're around
Only one that fit the...
