

## Cherry Coffee

Kelela

Trust me, i'll feel better  
Say it's over, baby  
Been tellin' me for a while  
That you're gonna stop  
Hurting, but i weather  
Finally got through the sting  
That's the hardest part  
Seeing in the dark

You're in deep  
I see what's going on  
It's a twisted cycle you've confused with love  
I'm in deep  
Feel like I'mma die, a fade to mind  
I keep letting go  
But i know you're holding on

Keep me up in bed at night  
You're better than you'll ever know  
I'm in a story, prisoner...  
Taking my time

You never give up  
Now it's over  
Told you, baby  
Pray to the almighty  
That you figure out  
How to pull the trigger  
And then you'll look at me  
Someone you know who tried  
Now that we're clear, bye bye

You're in deep  
I see what's going on  
It's a twisted cycle you've confused with love  
I'm in deep  
Feel like I'mma die, a fade to mind  
I keep letting go  
But i know you're holding on
