

# Floor Show

Kelela

Give me a reason to listen  
Tell me, i already know your answer  
Under her spell  
You pledge your allegiance  
Tell me no more, i studied your steelo  
But i can't get out

Ain't never left  
Although i tried a million times  
Wonder how it feels  
I'll never know, you're never mine  
You should stop the front  
Before i catch you in a lie  
You forget my name  
But you say it every night

'til the end of time  
Actin like you don't know  
Puttin' on a floor show  
'til the end of time  
Took some time to get right  
Things were lookin' so bright

Up to now it's eaten me up  
Took a few cycles of up and down  
To really turn around  
Boy i can tell  
You know what you're doin'  
But this tug of war is addictive somehow  
I can't get out

Ain't never left  
Although i tried a million times  
Wonder how it feels  
I'll never know, you're never mine  
You should stop the front  
Before i catch you in a lie  
You forget my name  
But you say it every night

'til the end of time  
Actin like you don't know  
Puttin' on a floor show  
'til the end of time  
Took some time to get right  
Things are lookin' so bright

Giving you my everything, you  
Turned around and did things your way, i  
Try to fight the urge to define  
Letting go of things that's not mine  
Desperate for another day  
Wish i knew the thing to say  
Spent my time building you up  
And now it's falling down

'til the end of time

Actin like you don't know  
Puttin' on a floor show  
'til the end of time  
Took some time to get right  
Things are lookin' so bright

Stop for just a minute  
Let me tell you what i've fallen into  
I am trapped inside your conscience  
I know that you're thinking you're way out
