

Keep It Cool

Kelela

Beautiful, you're not mine
You can't stop and it's a crime
We're gonna blow our cover
Bound to surrender, unless we

Keep it
Keep it cool...

Round and round inside our heads
We're going no where
"focusing is hard" you're telling me
Cuz i'm not there
This ain't no coincidence
Taking all i've got
I almost surrendered
Why must we

Keep it
Keep it cool...

Hope one day the stars align
You're deep within me
'til you give it up
We can't surrender
You're not free

Keep it
Keep it cool...

Make it hot
When you surrender
You make it hot
Then, we'll surrender
Make it hot
You know
I make it hot
