

# I Am Elvis

Keller Williams

I'd like to sail around the world in my mind  
I'd like to snowboard naked in the morning  
Jump out of a helicopter freeze my behind  
I'd like to ride up on the space shuttle where there's no gravity  
I'd like to float down just for fun cos you see  
Space is the place at least for me

And it's all  
In my mind  
I live inside my imagination  
Yes it's all  
In my mind  
My imagination stays on vacation  
And I like to go there  
When I have the time  
Which is all the time

I'd like to fly across the ocean with no plane  
I'd like to walk the runway down the highway  
In the pouring rain in the left lane  
I'd like to do the moonwalk on top of a speeding bullet train  
I'd like to tie a zipline from the space needle to the empire state  
Building  
Zip down with kurt cobain

In my mind  
I live inside my imagination  
Yes it's all  
In my mind  
My imagination stays on vacation  
And I like to go there  
When I have the time  
Which is all the time

Is there a bridge  
Between life and the real world  
Would it be safe to cross  
I'd rather join the circus  
Than be the dude that gets shot out of a cannon  
Then hurled across three rings

I would land up on my feet  
You know I would just like a ninja

I'd like to catch myself some scuba diving  
In the shark tank at the aquarium  
I'd like to skinny dip with the alligators at the zoo  
I enjoy being the president of the united states of america  
I'd like to go down niagra falls with nothin but my flip flops  
And an inner tube

Cos it's all  
In my mind  
I live inside my imagination  
Yes it's all  
In my mind  
My imagination stays on vacation

And I like to go there  
When I have the time  
Which is all the time

□I am Elvis  
And I'm alive
